

## CV

1. Name           Hiroyuki Koshino
2. Affiliation    RIKEN Center for Sustainable Resource Science  
                  Technology Platform Division  
                  Molecular Structure Characterization Unit
3. Position       Unit Leader
4. Education and Research Positions
  - 1985-1990    Graduate School of Agriculture, Hokkaido University
  - 1990         Ph. D. (Dr. Agriculture), Hokkaido University
  - 1990-1992    Special Researcher, Basic Science Program, RIKEN
  - 1992-2000    Researcher, Molecular Characterization Division, RIKEN
  - 2000-2003    Head, Molecular Characterization Division, RIKEN
  - 2003-2008    Team Leader, Molecular Characterization Team, ADSC (Advanced Development & Supporting Center), RIKEN
  - 2008-2009    Team Head, Molecular Characterization Team, ATSD (Advanced Technology Support Division), ASI (Advanced Science Institute), RIKEN
  - 2009-2013    Team Head, Molecular Characterization Team, CBCF (Chemical Biology Core Facility), ASI, RIKEN
  - 2013-present  Vice Chief Scientist, Synthetic Organic Chemistry Laboratory, RIKEN
  - 2013-2015    (concurrently) Collaboration Promotion Unit, Global Research Cluster, RIKEN
  - 2015-present  Unit Leader, Molecular Structure Characterization Unit, Technology Platform Division, RIKEN Center for Sustainable Resource Science
5. Awards        The Japan Bioscience, Biotechnology and Agrochemistry Society Award for the Encouragement of Young Scientist, 2002
6. Research Field   Natural Product Chemistry, Structure Elucidation, NMR
